

Max Müller

Prague,
Czech republic

Profile

I have over 5 years of experience working in IT industry. Even though I have most experience in FE and BE I am used to adapt to requirements of the job. For last year I managed team of 4 developers as their Lead.

Skills

I am used to agile development with weekly sprints. The technologies I used mostly at work are React, Typescript, Go, Node.JS, PostgreSQL and Docker. I am quick learner so new technologies are not a problem.

Work Experiences

2018-2019
Creating of
HTML/CSS/JS
templates

2019-2022
Website and
Mobile
development

2022-current
